# VAN ETTEN'S MEN BEST AT DRILL

**Vaudoville and Drilling Contests**  
**Hold Old and New Members of**  
**Company M at Their Smoker Until**

The members of Company M, First Infantry, N. G., N. Y., and the old members who have gone out from the company were entertained at a smoker at the armory Thursday evening. During the evening there was a prize drill between the present members and the old members in which the divisions were led by Major Chandler.

Colonel P. L. Mougher, Captain John G. Van Etten, Lieut. John Huhne and Lieut. Fred Traver. After some very closely contested drilling by the various companies, Lieut. Huitbrant and Lieut. Cashin who acted as judges, awarded the first prize to Captain John G. Van Etten's warriors and second prize to Lieut. Huhne. Although it had been years since Captain Van Etten had acted as drillmaster it was evident that he had not lost his knowledge of military drill.

Following the exhibition drills the members were entertained by some of the best vaudeville which has ever been brought to Kingston. Captain Fowler, through Mr. Skea, of New York city who provided the entertainment for the recent Shriners' dance, had secured some of the best entertainment possible to be found.

Of course the Company M. jazz orchestra was there. Harry Armstrong, the man who wrote "Sweet Adeline," entertained at the piano and in song. Delator Turley in songs and dancing, provided some real high class entertainment but the man who kept the soldier boys at attention was Prof. Neuman, a magician, who certainly could mystify. Prof. Neuman showed various tricks of magic and card

tricks. One of the boys produced a \$10 bill upon which he placed his initial and later on cutting open a lemon found the bill in the center of the lemon. Other tricks of a similar nature kept the boys in good spirits and showed Prof Neuman to be one of the cleverest artists of magic ever brought to Kingston.

Allen & Clarke, the wonderful musical trio and Larry Sharkey, the Irish monologist, were great and so good was the entertainment provided that the smoker did not break up until midnight. Every member was loud in his praise for the excellent program which Captain Fowler had provided and the opinion was unanimous that the smoker had been the most successful of ever held.

After he had finished the British premier sat in silence for several minutes before he proposed the appointment of a special committee to consider the indemnity to private.

M. Doumer demanded that the Germans should pay approximately fifty billion dollars of which France would receive 55 per cent.

## DON'T FOOL YOUR FEET

If you have "weak" or fallen arches—flat feet—and you think you are better because you are wearing an artificial brace under your feet, just discard that brace for a few days and see if you can walk and stand in comfort. If you cannot, you are no better off physically than when you first acquired your disability.

Surely you do not propose to dedicate the remainder of your days coddling your feet. You don't want to always have to wear a device to enable you to walk. You want to have a greater field of activity than that permitted by a brace or bandage.

My system of treatment for the feet WILL restore a fallen arch. It will allow you to be as active—without discomfort—as you ever were. You will secure lasting relief. Learn about it.

**Age of Earth Incalculable.**  
Astronomers have little idea of the age of the earth. It is pronounced that our family of a wide range from a source older than of nebula, but not if it is attempted to express the time in years from that era to this, the figures are meaningless. They are a mass. The remotest period of time which science reveals shows the world to all intents the same as it is today with the exception of the higher forms of life. That era was a million of million years ago and in comparison the history of our globe from its creation is as hardly more than a few minutes in one day of time.

**It is the Coloring Matter of Pure  
Blood That Makes a Good  
Complexion**

Beauty is more than skin deep. No one can have a clear, delicate skin, glowing with health, if the blood is impure or lacking in the vitally necessary iron that gives the coloring matter to the "life fluid." Neglect of regular and necessary waste elimination, helps to render the blood impure and reduce its iron contents. The best cosmetic in the world is pure, healthy, iron-rich blood.

Doctors, realizing the importance of enriching and improving the blood, have for years prescribed Gude's Pepto-Mangan, the pleasant and proved blood builder and tonic.

Pepto-Mangan contains just the elements needed to change thin watery blood to good, red blood. Pepto-Mangan builds rich, red blood, enabling it to carry strength and vigor to every part of the body.

Gude's Pepto-Mangan has become so well known, by reason of doctors recommending it, that you can get it in tablet or liquid form at any drug store. Instead of trying to cover up a poor complexion, get a bottle of Gude's Pepto-Mangan and note how soon you feel better, sleep better, work harder, play with more zest—and how your skin and complexion are improving.

Only make sure to get the genuine. It has "Gude's" on the package.—Advertisement.

## NATION SHORT 1,250,000 HOUSES

Wage Earners, Unable to Pay High  
Rents Demanded, Have Been Forced  
to "Double Up" and 4,000,000  
Persons in This Country are In-  
adequately Housed This Winter—  
Relief Measures Under Discussion  
at Washington.

By Telegraph to The Freeman.  
Washington, Jan. 28.—There is a  
shortage of houses in America reach-  
ing the enormous total of 1,250,000,  
according to figures submitted yester-  
day to the national council of the United  
States, which convened yesterday to  
consider measures of relief.

The housing shortage, according to  
John Diller, manager of the national  
council's civil development depart-  
ment, has reached a point where  
4,000,000 persons are inadequately  
housed. Diller has made a close  
study of the housing problem.

"For a number of years prior to  
the war," said Diller, "it is  
conservatively estimated that there  
were erected in the United States be-  
tween 350,000 and 400,000 family  
dwellings in a year. This includes  
homes and apartments. During the  
war construction of houses was prac-  
tically at a standstill, with the ex-  
ception of what building was done by  
the government. As a result of this  
we came out of the war far behind  
our regular building program. The  
situation has not improved a great  
deal since the signing of the armistice  
except for a brief spurt early in  
1919, because those who contemplated  
building homes put it off until  
prices should become stabilized.

"In 1919 it is estimated that there  
were built only about 70,000 houses  
in the United States, while the num-  
ber erected during 1920 will prob-  
ably turn out to have been even  
smaller than that figure.

"While it is true that there are  
many houses for sale, these are all  
now occupied by tenants. The num-  
ber of houses for rent in most com-  
munities is practically nil and the  
majority of these houses are not suit-  
able for the needs of the average  
wage earner. A man with an income  
of \$5,000 a year or more doesn't  
have as much trouble getting desir-  
able quarters as the wage earner who  
cannot afford to pay high rents. The  
wage earner and those earning small  
salaries are the ones who are hit  
hardest by the housing shortage. It  
is for these folks that decent homes  
must be built.

"Meanwhile they, as well as many  
with large incomes, are doubling up  
or taking in lodgers, increased rents,  
too, have caused many families to  
share their quarters with outsiders, so  
we have the anomaly of a block or an  
apartment house containing a larger  
number of people than it ever did in  
the past, yet with an occasional  
house or apartment vacant because  
those needing better quarters can't  
afford to pay any higher rents. This  
over-crowding of rooms is viewed  
with anxiety by the public health  
officials, who realize how infectious  
diseases spread under such condi-  
tions.

# STATE INCOME TAX INFORMATION

Taxpayers in Ulster county should file their returns with District Director J. Deputy Hasbrouck at 518 Broadway, Kingston.

Curious: I have deferred paying a personal property tax assessed by the town board on industrial stocks and bonds which I own, because I have a dim recollection that the income tax law wiped out the personal property tax on this.

Ans.—Unless the local assessors included such personal property in an assessment roll prior to July 31, 1919 the imposing of personal property tax is in conflict with section 352 of the tax law. This provides that bonds and shares of stocks "in corporations other than banks or bank associations owned by any individual or constituting a part of a trust or estate subject to the income tax, shall not be included in the assessment rolls of the tax districts of this state after that date."

Official: Under the ruling of the attorney general do I, as a surrogate, appointed in November 1919 and taking office January 1, 1920, exclude from my income my pay as such county official?

Ans.—No. The ruling of the attorney general advising this bureau that salaries of constitutional officers are not taxable in accordance with the Evans v. Gore decision of the U. S. Supreme Court, specifically mentioned that the salaries of officials who took office subsequent to the effective date of the personal income tax law (May 14, 1919) are taxable.

R. L. B.—Having secured an adverse determination of the Income Tax Bureau I propose to litigate for a refund, the disallowance of certain deductions. Has the bureau prepared any forms for certiorari proceedings?

Ans.—If you will indicate the precise questions which are the basis of your proposed action this office through the courtesy of the attorney general will send you suggestions as to the form of writ, undertaking, etc.

Manager: Having paid \$1,200 during the last part of 1920 to a forward on a basket ball team, who lived in Connecticut, and also a like amount to several New York state residents, have I any duties under the New York Income Tax Law?

Ans.—Yes. On the non-resident you would be required to deduct and pay to the state one per cent in excess of his personal exemption as indicated on form 102 which he should file with you. As to the residents, you should file information returns on forms 105 and 106 with this bureau where the aggregate payments to each individual amounted to \$1,000 or over.

Dredger: During the early part of 1920 I was employed by the F. Company in Cuba, returning to New York in September. Although a single man I did not intend to relinquish my residence in the state (1) Under what circumstances am I a resident? (2) As a resident do I have to pay a tax on the money made in Cuba?

Ans.—(1) Yes. (2) Yes as a resident your income from all sources during the entire year is taxable.

Teacher: Do I understand that I am taxable on my salary from the City of New York? Is my elder sister receiving a pension as a retired teacher from New York city taxable on that amount?

Ans.—Your salary as a teacher is taxable under the New York personal income tax law, but the amount of pension payments which your sister receives is not taxable because of the specific provisions of the statute establishing such fund.

Non-resident: Last year my return under the state law was due on June 30th. Am I allowed until this time this year for my 1920 returns?

Ans.—No. By amendment all returns, both resident and non-resident individual and informational 15, 1921 are due on or before April 15, 1921 for the calendar year 1920. Fiscal year returns are due on the 15th day of the fourth month after the close of the books.

Taxes: In 1920 I paid certain taxes, some of which occurred in 1918 and 1919. Are they lawful deductions from my income for the year 1920?

Ans.—No. Only taxes which are due in the year for which the taxpayers make a return are deductible.

Electrician: Up to August I worked for a New York State Railway Company. Then for the rest of the year I worked out of the state. In New York state I earned \$900 and \$400 outside of the state. I am unmarried. Do I have to file a return?

Ans.—As a resident you are taxable on your earnings both within and without the state in excess of your \$1,000 personal exemption, or less on which you would have to pay a tax of \$2.00.

Manufacturer: In 1920 I purchased a lot with a building on it at a cost of \$5,000, with the intent to remove the building and erect an addition to my factory. The building was worth \$2,000. I sold it to a mortgagee for \$2,500. May I deduct a loss of \$2,750 on the sale of the building?

Ans.—No. You purchased the real estate with the intent to raise the building and it is assumed that the amount which you paid was in consideration for the lot as a site for the new addition.

## 15 DAYS GRACE FOR AUTO PLATES

Albany, Jan. 23.—New York state automobilists have been given fifteen days grace in which to secure their new plates. Secretary of State John J. Lyons today announcing a fifteen-day extension from February 7, imperative by reason of the unprecedented volume of business, largely augmented by the open winter, now passing through his office. No further extension of time after February 15 is probable. Secretary Lyons has notified the state troopers, as well as the chiefs of police throughout the entire state, to recognize last year's plates up to the morning of February 16.

When Secretary Lyons assumed his present office he made plans to handle the automobile rush without seeking the usual extension of time. The handicap of an open winter, together with a delayed delivery of plates by the state prison department, proved too great a handicap, however, despite an innovation by Mr. Lyons of making three state automobiles in Greater New York distributing centers for plates, diverting the crowds from the main bureau on Broadway.

At the present rate, over 75 per cent of the entire year's registration will be handled within the next few weeks, the mail bringing anywhere from 10,000 to 20,000 or more applications a day, while all bureaus have long lines of applicants for the new plates.

### LIBRARY TRUSTEES' TRIBUTE

To Howard Chipp in Recognition of His Zealous Service.

At the last meeting of the board of trustees of the city library Dean Hickey presented the following tribute to Howard Chipp:

The degree of accomplishment in commensurate with the ability and efficiency of the promoter. It has been Kingston's good fortune to have had in its position of trust citizens of elevating mind and lofty purpose, who have striven to give the community the wealth of their endowments in advancement of the good cause they espouse.

Singularly true has this been of the administration of the city library that has been a factor in the educational development of the people.

The inextinguishable good that the library has accomplished is directly due to the judgment, interest and proper guidance of those who so well responded to their trust.

For a score of years the library's increasing value to the community has been the devoted concern and unswerving effort of one of our distinguished citizens, who, at his own request, terminates a long and successful stewardship.

Howard Chipp—in letters "rudimentary" in his profession conspicuous in public service generous—deserves an expression of gratitude for the excellent service he has rendered to the community in perfecting this work, and in stimulating an interest in it.

Time, energy and rich endowment have been lavishly bestowed by him and his reward must be the happy realization of the wonderful success that has smiled upon persistent effort.

The trustees of the library, in token of their appreciation, place this recognition of gratitude on their records as regrettably they disassociate from Mr. Chipp in a measure that has been so mutually interesting.

**Rondout Presbyterian Church.**  
The chapel of the Rondout Presbyterian Church has commenced to present a panorama of all times and climes of the year from the drifting snows of January through the spring flowers, August's torrid sun, autumn's fruits and the thine and glitter of Christmas time. The chairman of the months are: January, Miss Huber; February, Mrs. John Monroe; March, Miss Terwilliger; April, Mrs. O. V. Wood; May, Mrs. C. R. O'Connor; June, Mrs. C. H. Bishop; July, Mrs. Palmer Canfield; August, Mrs. M. G. Holmes; September, Mrs. John Reading; October, Mrs. William McCullough; November, Mrs. Arthur O'Grady; December, Mrs. James Purdy. They hope to welcome all their friends at the holiday party this evening. The party begins at 7:30, with a pleasing and varied program at 8 o'clock. Father Time is trying to shift his responsibility as conductor to the new year. The birthday cakes are of a melting deliciousness (also the candles). Character reading will be had.

Beautiful fancy articles, aprons of all descriptions and refreshments may be purchased. Dancing with good music on the first floor every night.

Mayor Canfield will officially open the fair at 8:30 o'clock, with opening prayer by the Rev. F. W. Moot, chaplain of the company.

**Accep's Hen Was a Goose.**  
Some "translators" of Accep's Fables use "hen" for "goose" in the fable about the golden egg, but the Greek of the "text" is "chen," which looks like some fountainhead of "hen" but really means "goose." The accepted translators of rather adapters, follow the familiar word of the vast majority, "goose." It must be remembered that there really is no original Accepian text, but only some later transcriptions of what came to be regarded as the fables told by the old slave.

Though they intended to fly all the way from Omaha, Neb., to Washington, D. C., Mrs. H. H. Wheeler, fifty-five, of Lincoln, Neb., and Mrs. Draper Smith, sixty-six, of Omaha, were compelled to abandon their flight at Des Moines because of bad weather and continue their journey to Washington by rail. Both Mrs. Wheeler and Mrs. Smith are grandmothers and were entrusted with the duty of carrying Nebraska's electoral vote to the capital. With Margaret Clayton, John G. Hinton and an All Star Cast

The out of the ordinary spectacle of a wife who is suing her husband for an absolute divorce appearing in court with her alleged rival, seemingly on the most friendly terms, was witnessed in the supreme court, New York city, recently. Mrs. Betty Clifford Coberg, who married George J. Coberg, an actor, in 1918, appeared as a friend of the first wife, Mrs. Annie Coberg, who is suing Coberg for divorce. Mrs. Annie Coberg, wife No. 1, married the actor in 1912. She left her husband two years after the wedding. The second Mrs. Coberg married Coberg a short time after he was given a disability discharge from the navy at Norfolk, Va.

### TALKED WITH MONKEY "KING"

Buddhist Disciple Was Positive That the Animal Understood Speech He Addressed to Him.

A third degree disciple of Buddha who hails from the famous Yellow Mountains (Huang Shan) says they are the home of tigers, wildcats, wild horses, goats, bears and an animal resembling a panther, with bristly hair and imperious skin—and monkeys.

The monkeys he divided into two classes, one the ordinary brown monkey with a tail, the other white breasted and white faced, with a gray back and but little smaller than a man. He intimated that this type manifested a degree of intelligence when spoken to, very much resembling man, and was talkative.

To this second class belongs what he called "the Great White Monkey King," ruler of all the beasts of the mountains, and described as being more than twenty feet tall, with arms ten feet long, four thick each at least a foot long, a face and eyes proportionately large, and a voice that made the earth tremble whenever it spoke.

He said he had seen this great monkey king twice—once at a distance of half a li, and once when he dropped down from a high cliff and stood within fifteen feet of it. On this occasion the monkey king was attended by five smaller monkeys.

He attempted to address them, whereupon they all sat down and gave respectful hearing, punctuating his remarks with assenting grunts which indicated that the message was being understood. When he had finished his speech the monkey king arose muttering something and started away.

### GREED WORSE THAN POVERTY

Former Always Fruitful of Evil, While the Latter Is Often Incentive to Thrift.

The fear of poverty is not in itself a bad thing, writes Dr. Charles Aubrey Eaton in Leslie's. It may become the mother of thrift. It acts as a spur to endeavor, and some men, like some horses, do their best under the spur.

Poverty is not always an unalloyed evil. In fact, it is and has been looked upon as one of the distinctly Christian virtues, although there seems to be rather a feeble desire to practice this particular grace.

Greedy, on the other hand, is always bad. It is plainly the outcropping of the hog in human nature. It is the fear of poverty run amuck. It is illustrated by the drunkard who often had too much but never got enough. Greedy is at the bottom of most of our troubles today and has been equally fruitful of evil in every age and among every class. We can never come to permanent social peace while the fear of poverty embitters one-half the people and greed drives the other half to

self-destruction. Nor will it get us anywhere to infect the whole population with the greedy germ and turn society into a glorified trough.

### Japanese Marriage Customs.

Marriages in Japan are generally brought about by older married couples who act as go-betweens. There is a popular saying that everyone should act as a go-between at least three times. The go-between, knowing a young man and woman whom he regards as suitable to each other, proposes the match confidentially to the parents of both. If preliminary reports are mutually satisfactory to the two families, a meeting of the young couple and their parents and relatives is arranged on neutral ground. Any intimation of the real purpose of this meeting is tactfully avoided at the time, though the purpose of it is, of course, fully understood by all concerned. Under this arrangement either family may, without giving offense, drop the matter after the first meeting, but if

the results of the preliminary inspection are satisfactory to both sides, the parents meet again and definitely arrange the match, which is made binding by an exchange of presents.

### Few Japanese Marry for Love.

The Orient and the Occident are nowhere farther apart than in their views and customs as to the mating of men and women, according to Julian Street in McClure's. In Japan marriages for love rarely occur, though it is said that the tendency of young people to marry to suit themselves is growing. Young Japanese girls often look with envy upon women of other nations where marriage for love is the general rule. Probably they suppose such matches are invariably happy; that the love is always real love, and that it endures forever. No doubt the Occidental system, viewed from afar, looks as rosy to a Japanese girl as their system looks appalling to an American girl.

### Bull Aviates Through Air Propelled by Tornado

Birchwood, Wis.—Among the freaks of a small tornado which struck the farm of Fred Youngston was that of the wind carrying a 1,300-pound bull several rods in the air. Youngston watched the wind pick the bull up and carry him, landing him on his feet.

### MAN IS GIVEN UP AS DEAD

Turns Up Alive in Indiana Town After Nation-Wide Search Had Been Made for Him for Four Years.

Lafayette, Ind.—John Wyrwaz, who disappeared from his home at Oxford more than four years ago and for whom a nation-wide search was made, surprised residents of that town recently by reappearing as if from the grave. Wyrwaz, who was in the plumbing

business, disappeared without warning, leaving his wife and children at most penniless. He was last seen at Lafayette, but no trace of him could be found from the day that he arrived here, in the spring of 1910. The following year a skeleton was found in the Wabash river and it was thought that the bones were those of Wyrwaz. Mrs. Wyrwaz decided that her husband was dead and moved to Lehigh, N. Y., with her children.

When he arrived at Oxford he told friends that he had left home because of domestic trouble. He said that he had spent two years in Cuba and had made up his mind never to return, but the thought of his wife and family never left his mind and that remorse finally drove him back to his former home. He left Oxford for the East to make a search for his family. Wyrwaz is forty-five years old.

Let in the Hardest Suburban known, it is a species of pointed wood of charcoal and first was produced from pieces of rock and shale washed up in the "Chalk" and "Whitby" basins. However, it is obtained almost entirely by mining. The great quality of it comes from the Limestone coast near Whitby. The industry, then, furnishes employment for many. It is found also in Bavaria, Bohemia, France, Germany and Spain. Some let it be used in the United States, but not much attention has been given to its production.

Harold was often allowed to visit his grandmother, but was always told the hour he should return home. On arriving at this grandmother's one morning he was asked how long he could stay. Up for Four Days by  
Parents.****WEAK WHEN RESCUED**

Stamato, Arrested, Declares the Boy Incurable, and "Rocks" Neighbors for Interfering—Proper Home Will Be Found for the Lad.

New York.—It all came about—this police court fairy tale—because Little Miss Thirteen, who is wide-eyed Anna Gold, was visiting "down the block" on the evening of Saturday, Aug. 28. Anna was sitting with her friend, Mrs. Marie St. Jacques, on the first floor of the two-family house at 384 Fifty-seventh street, Brooklyn, when a plaintive, frightened voice came to them.

"Mrs. St. Jacques, oh, Mrs. St. Jacques, have you anything to eat?" The words melted into a choking sob. Little Miss Thirteen leaped to her feet and rushed upstairs. In a dark bedroom opening on the hall she saw a dark shape huddled against the wall. She got some matches, lighted one and saw a thin, pale little lad, his slender arm, bound by a rope and his frail body encircled several times by another rope which was attached to a spike driven into the wall.

**Tied Up for Days.**

"What's the matter, little boy?" tremulously asked Miss Thirteen. "I've been tied up since Thursday morning," weakly answered Little Master Ten, who is Joseph Plock.

"My father and stepmother tied me up to punish me. They have given me only a little bread and water. They have gone out for a little while and I am starving."

"Don't worry, little boy," reassured Little Miss Thirteen, her eyes gushing tears of sympathy. "I will get you something."

Soon she returned with some bread and milk. She helped free Little Master Ten's arms, fed him and was leaving to get some more food when the sound of approaching steps and a shiver of terror in the boy warned her the "bad parents" were returning.

So Little Miss Thirteen had to be content with repeating her story to Mrs. St. Jacques and other neighbors, who warned the Children's society.

So it came about that Little Master Ten was released after he had been fastened to the wall for four days and three nights and the parents were arrested. Then the two little figures in

**His Arms Bound by a Rope.**

the bread-and-milk lad told their stories to Magistrate Louis Bernold, in Fifth avenue court, and Plock and his wife were held in \$500 bail each. Little Master Ten was pale and pale in contrast to the ruddy strength of his father and the brawn, relaxation of his stepmother. Sighing his cap nervously as he told of his agonizing experience. He said his father punished him frequently after his second marriage.

He was trapped to the wall because he took some prizes from the ice box. The first night he remained standing against the wall and all the next day.

**Woman Annals Neighbor.**

Plock, and his wife asserted the lad was incurable. The latter said she could have "rescued" him if the neighbors hadn't "batted in." At which a levy of neighbors in the courtroom "batted" suitably.

Little Joseph shrank away from his parents to the courtroom. He clung to Agent Charles Hardest of the Children's society, who took him into an armchair. Here he was visited by Mrs. Ellen O'Grady, deputy justice commissioner, who sat her arms around him and said:

"Don't worry, little man. We are going to find a good home for you. For the first time Little Master Ten's huge head relaxed and he smiled."

**A Secret Deal.**

A correspondent made on a capital policeman, but that is entirely new to us. It appears that a young lawyer was temporarily filling in duty and said in his report he said: "May the brother who ministers to this boy be filled full of fresh coal and new vigor."

## GILBERT RAPS FEARON'S BILL

By Telegram to The Freeman.  
Albany, N. Y., Jan. 23.—Frank B. Gilbert, acting commissioner of education, in a letter today to educational authorities throughout the state, attacks the Fearon bill which would transfer power to fix salaries of teachers from boards of education to boards of estimate, common council or other financial bodies of cities. Commissioner Gilbert condemns the proposed legislation as tending to "politicize the teaching service and to prevent the employment of

teachers and their preferment in the service solely upon merit and experience."

Commissioner Gilbert also says the legislation is "opposed to the generally accepted principles of good school administration."

(By Telegram to The Freeman.)  
Chicago, Jan. 23.—Ten former officials and attaches of the Black Diamond Oil Company, reported to be a \$25,000,000 corporation, with properties in Oklahoma and Texas, and general offices in New York and Chicago, were named in a blanket indictment returned by the federal grand jury here today. The indictment charges conspiracy to use the United States mails to defraud.

## EXPERTS ESTIMATE CROSSING VALUES

Property Damage On North Side Of Broadway Figured At \$115,600 By Experts And Court—Unable To Fix Business Damage On North Side Of Street.

Schuyler C. Schultz and Elmer E. Swart were called this morning to testify in the Broadway grade crossing elimination proceedings before Judge Nichols, in regard to the land and building values of the property which the proposed elimination would take. Mr. Schultz was called and testified that he and Mr. Swart had examined the properties along Broadway from Cedar street to Pine Grove avenue on the south and from Cornell to Delorick street on the north side of the street.

According to the present plans as approved no property on the north side of the street will be taken, all of the land will be taken from the south side of the street. Figures on the various properties were submitted showing the estimated values of the properties now, both land values and building values, and the values after the elimination had taken place. After consultation Mr. Schultz who is a real estate man and Mr. Swart, who is a builder and contractor, agreed that a fair value of the properties which would be affected, as they now exist was \$161,625 divided in land values \$55,375 and buildings \$106,250. After the elimination the total value was estimated at \$46,025 making the total damage \$115,600. This does not include any property on the north side of the street but as there would be no property taken there the damages would be confined entirely to business damages.

Mr. Swart stated very emphatically on the stand that he was opposed to the elimination. He could give no estimate of the business damages to properties on the north side of the street but stated that these damages would be governed partly on how long the street was cut off during the construction period. Railroad engineers proposed to shut off only one side of the street at a time during construction. Mr. Swart explained that if the street was kept open the business damages would not be as great as if the street was shut entirely during the whole construction period.

On one of the pieces of property to be taken on the south side of the street an offer of sale has been made by the owners at a less figure than Mr. Schultz and Mr. Swart estimated the property to be worth.

The action is brought to prevent the city from paying more than its proportionate share of the cost under the agreement arrived at by the city, the railroad and the Public Service Commission the city has agreed to pay all property damages over \$125,000 and also to stand the cost of relaying sewers, water mains etc., and the construction of a concrete guard rail around the subway.

**JOHN WISLOWSKI IS IN AGAIN**

John Wislowski of North Road is having trouble all of his own kind. He is in the beginning of a new year in mind that John is out on parole from Randall's Island, where he was committed some time ago.

Last Saturday evening, he was arrested at the Orpheum Theater on a warrant obtained by William Cole of No. 271 Second Avenue, charging John with molesting his two small children. Monday morning, John's case was adjourned for two weeks, and bail fixed at \$200. After that case was disposed of the police immediately took John into custody on a charge of violating his parole from Randall's Island and he was remanded to jail by Judge Schirick to await the arrival of the Island authorities.

So far this week they have failed to appear on the scene, and John's family retained Attorney Robert Howard who secured a writ of habeas corpus. The matter came up for a hearing before Judge Nichols at the court house this morning and the court decided that John could not be legally held more than two days, and so freed him.

As John was leaving the court room he was immediately placed under arrest by Sergeant Hanley on a warrant charging him with carrying concealed weapons, and the sergeant escorted him back to the city hall to be arraigned before Judge Schirick in police court.

John was accompanied by his attorney, Mr. Howard, who represented him at the hearing in police court.

By consent the trial was adjourned to February 7, and Judge Schirick fixed bail at \$2,500, and remanded John to jail until it was furnished. It is expected that the Randall's Island authorities will reach Kingston this afternoon to escort him back to the island.

**Let's Gather It In.**  
It is computed that the earth's atmosphere contains at least 4,000,000,000,000 of tons of nitrogen directly accessible. The quantity in the air over one square kilometer of land is sufficient to enrich the earth of the whole world for twenty years at the present rate of consumption.

## TWO HIGH SCHOOL GAMES SATURDAY

Saturday afternoon at 2 o'clock the Kingston High School girls' varsity will play their first home game, when they line up against the Newburgh Academy girls' team.

This is the first game that the local girls have had scheduled with the "Hilly City" girls in some time. The Maroon and White quintet is a fast, clever bunch of players and has a style of teamwork that is hard to learn to break up. The forwards, too, are equipped with unflinching eyes and once they get within range of the basket, there is very likely to be a score for Kingston.

From all reports, the Newburgh girls are playing good basketball and of course will be out to win if they possibly can do so. They will have to fight hard and it looks as though there would be a most interesting and exciting game in the local gym on Saturday afternoon.

Following the game, there will be dancing for the High School students and the members of the K. H. S., K. A. and U. A. Alumni.

While the local girls are battling with the Newburghers at the local court, the K. H. S. boys' varsity will be in Newburgh playing against the Academy boys' varsity. From all the latest reports, it looks as though the game would be one of "nip and tuck" as the teams seem to be pretty evenly matched.

Guy Kyle, former pastor of the

Free Methodist Church of Mount Vernon, N.Y., who has confessed to complicity in the robbery of a motor truck at Mt. Vernon loaded with mail sacks containing bonds and currency valued at \$212,090. He is in jail awaiting trial. It is said he was the "brains" of a gang of rural mail robbers. Kyle admitted he served thirty days for bootlegging and running a gambling house twenty years ago. He says he was converted and studied for the ministry. He quit the pulpit to engage in the garage business.

Dr. Baragwanath, pastor of the St. James Church, will have as the topic of his "story-sermon" on Sunday night Wordsworth's "Ode to Duty—Freedom and Law."
